Bevolution Announces The RD01 and G008 Dispense Pumps

**Bevolution to Exhibit at The National Restaurant Association Show,
May 20-23, 2023**

West Byfleet, Surrey, United Kingdom, May 8th 2023 – Bevolution, “Manufacturing beverage dispense pumps that have unique capabilities such as running dry, reversible pumping, self priming and more.”, will showcase its RD01 and G008 Dispense Pumps at The National Restaurant Association Show. As an exhibitor at the Show, an event bringing together more than 51,000 foodservice professionals from 112 different countries and representing over 900 product categories, **Bevolution** will be able to connect with the industry and share leading-edge trends, solutions and knowledge for the year ahead in Chicago, Illinois.

Bevolution/Charles Austen Pumps Ltd continuously delivers products that are at the leading edge of technical development. Driven by a desire to provide innovative pumps to a number of markets, Bevolution/Charles Austen pumps are designed with the consumer in mind, to ensure consistent benefits are delivered in a range of applications.

Rotary Diaphragm Pumps

The patented rotary diaphragm technology has a revolutionary pumping principle. The flow of liquid is initiated by an eccentrically mounted bearing on a drive shaft which revolves within a flexible diaphragm.

Diaphragm Pumps

The major advantage of the diaphragm pump is that the pumping chamber is totally sealed and, therefore, does not require a sliding seal between moving parts.

“Bevolution are at the forefront of technology in the beverage dispense sector”

“The Show is the perfect opportunity to reach new buyers, build stronger relationships and strengthen our brand, which is why we’re showcasing **RD01 and G008 Dispense Pumps**,” said **Bill Shepherd, Managing Director** of **Bevolution/Charles Austen Pumps** “We’re thrilled to be able to share our products with thousands of foodservice professionals from around the globe and look forward to connecting with new and existing customers at the must-attend event for the industry.”

“We’re pleased to welcome **Bevolution** as exhibitor at the 2023 Show,” said Tom Cindric, President of Winsight Exhibitions. “The annual event showcases the latest in foodservice innovation and continues to inspire menus, revitalize beverage programs, initiate equipment

investments and pioneer groundbreaking technology. We're thrilled to bring together start-ups, niche brands and the biggest names in the industry to help foodservice professionals solve for today's biggest challenges including workforce shortages, labor costs and overall operational efficiency."

As the global restaurant and hospitality industry's premier trade show, the National Restaurant Association Show is the place to explore everything that's happening in the hospitality industry, from the latest food and beverage trends to emerging technology. It's all here! For more information, visit nationalrestaurantshow.com.

About Bevolution

Bevolution (Charles Austen Pumps Ltd) are at the forefront of technology in the beverage dispense sector. Our patented rotary diaphragm (RD) liquid pump technology uniquely and efficiently delivers syrups, coffees, smoothies and Bag In Box (BIB) flavours at up to 17000 centipoise.

The patented RD technology is self-priming and offers flow rates from a few millilitres up to 5 l/min. There are BLDC options available which can be programmable for the vend, along with dosing and stepper pump options. All the RD pump range can incorporate a cleaning cycle as the pump direction can be reversed which is ideal when pumping contents such as milk.

These liquid pumps are a cost-efficient and environmentally-friendly substitute to CO2 pumps and can be used as an alternative to high pressure BIB pumps, by simply changing the cycle to pull the media from the bag. *Models have both NSF and EU food approval.

The National Restaurant Association Show, Hotel-Motel Show is owned and operated by Winsight LLC in partnership with the National Restaurant Association.

About Winsight LLC

Winsight LLC is a business-to-business information, event and market intelligence company serving the restaurant and noncommercial foodservice, convenience and petroleum retailing and grocery industries.
