Engineered for Profit

The number one reason we started this business was to stop the waste of liquor from ineffective and poorly designed pour spouts.

Introducing Pure Pour and Pure Pour Tequila Spout

Now you may be asking yourself, "So what's the big deal if I have a couple of leaky spouts behind the bar?"

The big deal is money wasted. Why would you want to lose a single drop. With every turn of the bottle, and a leaky spout, you're losing money.

We want to keep that precious alcohol in your glass, not on your bar top.

We've been behind a commercial bar for over 30 years and have seen every spout imaginable. From cheap to expensive, and they all have one fatally flaw. They all leak!

"The number one reason why we invented this. Stop Waste... period."

Dan Andrews , Paul Helman
Inventor and Owners of the Pure Pour
